

# Meta Front-End Developer Capstone Project Overview

Written by John Tu

Contents of the Capstone Project:

## Figma Files (.fig):

- Components Sample (Components.fig)
- Prototype (Project Prototype.fig)
- Wireframe (Project Wireframe.fig)

## React App Files (.js, .html, .css):

- Components for Header, Nav, Main, and Footer (Header.js, Nav.js, Main.js, Footer.js)
- Stylesheets for Header, Nav, Main, and Footer (Styles/header\_style.css, Styles/nav\_style.css, Styles/main\_style.css, Styles/footer\_style.css)
- All components for Main component (inside MainComponents folder):
  - Stylesheets (Styles/Hero.css, Styles/Specials.css, Styles/Testimonials.css, Styles/About.css, Styles/BookingPage.css, Styles/BookingForm.css, Styles/Confirmed.css)
  - Hero section (Hero.js)
  - Specials section (Specials.js)
  - Testimonials section (Testimonials.js)
  - About section (About.js)
  - Booking section (BookingPage.js)
    - Booking form page (BookingForm.js)
    - Confirmation page (ConfirmedBooking.js)

List of issues encountered:

- useEffect and useNavigate causing the Jest unit tests to fail unexpectedly
- HTML elements not aligning or adjusting properly with screens less than 400 px
